RESTful APIs

Databases

SQL Server PostgreSQL
MongoDB

EDUCATION

BS Software Engineering

University of Lahore, Sargodha
Campus

Grade: A+ (Position Holder & Class
Topper)

PROFESSIONAL SUMMARY

Highly motivated Software Engineering student at the University of Lahore (Sargodha Campus) with experience in Full-Stack Web Development. Expert in building responsive, user-centric websites using React, Node.js, and Django. Proficient in managing complex databases including SQL Server, PostgreSQL, and MongoDB. Proven leader as a Class Representative with a strong eye for high-performance digital design and clean, scalable code.

EXPERIENCE

Full-Stack Web Developer

- Developed and deployed various types of websites, ensuring 100% mobile responsiveness and cross-browser compatibility.
- Utilized GitHub for version control, maintaining a professional workflow and documenting all development stages.
- Applied OOP principles in C++ and Java to create modular, maintainable software architectures.

KEY PROJECTS

"I Love PDF" – Web Application

Developed a comprehensive PDF management tool allowing users to manipulate PDF documents efficiently.

- Implemented frontend features for a seamless user experience and backend logic to handle file processing.
- Utilized JavaScript and modern web frameworks to ensure fast processing times and an attractive UI.

Library Management System

Created an automated system to manage book records and members data efficiently.

LEADERSHIP & SOCIETIES

- Class Representative (CR):** Manage academic coordination and resolve student concerns.
- Event Management Society:** Active Member.
